1. Claims 1-6 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 9, it is unclear what the phrase, "that has been expanded and hardened" refers to. Is the pre-expanded granules further expanded and there after, expanded? Or is the resin now expanded and hardened? Assuming the resin is now expanded and hardened, how is the granules prevented from "exploring" during same expansion/hardening?

In claim 2, lines 2-3, is the resin isocyanate or polyisocyanate with active hydrogen compound. Does the isocyanate possess such active hydrogen compound as well.

2. Claims 2-6 and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
